Attachment(s): ☒ None ☐ As listed below**Cat Electrocuted In Depot Main Workshop**

Referring to the above matter, we wish to bring to your attention that on 25 May 2021 approximately at about 2040h there was power trip at the main workshop which was caused by a cat that came into contact with T1-01 pantograph at Track 9.

In line with this incident, we monitored the situation for about a week and it has come to our attention that there are a few cats in depot which is being fed by our staffs regularly. While we understand that feeding the cats is done as a gesture of caring but if this continues, we will soon be having a mini zoo for cats at Depot and may lead to another untoward incident.

In view of this matter, we kindly urge you to stop feeding these cats so that we will be able to solve the catsqissue at the Depot.

Thanking you in advance for your support and cooperation for this matter

Sincerely
Thomas Baake
CEO

Sincerely
Sukhbir Singh
SAS HOD
